Wednesday night, 11:47 p.m. My to-do list looked like a horror movie, and my brain was stuck in neutral. ADHD fog had me rereading the same email for 20 minutes. Pulled up [Midnight Drugs](#), saw “overnight Adderall,” and thought, “Yeah, right.” Still clicked anyway.

Picked the 20 mg IR, tapped express shipping, paid with my card (site felt encrypted, no sketchy pop-ups), and passed out.

7:02 a.m.buzzer. Dude in a plain van hands me a tiny padded mailer, no labels. Inside: pharmacy bottle, orange pills, child-proof cap, legit script label with my name. Took one with orange juice.

By 7:45 the static cleared. Cranked through 47 emails, rewrote the deck, even color-coded my calendar without wanting to scream. Stayed dialed in till 6 p.m., no crash, just smooth.

Timeline for the skeptics:

- Ordered 11:52 p.m. → instant confirmation
- “Shipped” email 3:14 a.m. → tracking link
- “Delivered” ping 7:02 a.m. → signed, done

No pharmacy line, no “we’re out of stock,” no awkward chat. Just focus in a bottle, overnight.
